96%
COMPLIANCE

when worn by patients
for an average of
4 hours +/- day
during short-term study.¹

86%
COMPLIANCE

when worn by patients
for an average of
7.5 hours +/- day
during long-term study.^{2,3}

“We recommend that sleep physicians consider prescription of oral appliances, rather than no treatment, for adult patients with obstructive sleep apnea who are intolerant of CPAP therapy or prefer alternate therapy.”
